TRAINING ON HISTOPATHOLOGICAL TECHNIQUES IN FISH DISEASE DIAGNOSIS

COURSE CONTENT

1. Introduction to Fish Histology
2. Sample Collection and Preparation
3. Tissue Processing
4. Sectioning and Staining
5. Common Histopathological Findings in Fish Diseases
6. Advanced Techniques in Fish Histology
7. Case Studies

INTRODUCTION

Join us at the ICAR-DCFR, Bhimtal, for a comprehensive five-day training program on the role of "Histopathology Techniques in Fish Disease Diagnosis". This course is designed to equip participants with essential knowledge and skills in fish histology, covering key topics such as sample collection and preparation, tissue processing, sectioning and staining, common histopathological findings in fish diseases and case studies. Through hands-on training and expert-led sessions, participants will gain practical insights into diagnosing fish diseases using histopathological techniques, enhancing their proficiency in aquatic animal health management. Don't miss this opportunity to expand your expertise in fish histology and contribute to the sustainable management of aquaculture and fisheries.
