

Organised National conference on Trending Biotechnological interventions to Address and combat Himalayan Biodiversity challenges

A National conference was organized on “Trending Biotechnological interventions to Address and combat Himalayan Biodiversity challenges” by Uttarakhand Council for Biotechnology in coordination with **ICAR-Directorate of Coldwater Fisheries Research, Bhimtal** during 6-8 March, 2024. Event was inaugurated by Hon’ble Vice Chancellor, Soban Singh Jeena University, Almora in presence of other dignitaries. More than 100 deliberations were presented by the scientists, academicians and research scholars in the six technical sessions including Biotechnological interventions in Veterinary, Animal Science and Fisheries. A special technical programme was conducted on entrepreneurship development involving the progressive farmers of Uttarakhand. An exhibition was displayed on the theme of the conference with participation of more than 12 institutions/entrepreneurs and NGOs. Conference was concluded with valedictory session in the chairmanship of Hon’ble Vice Chancellor, Uttarakhand Open University and distinguished guest, Dr. Pramod Kumar Pandey, Director, ICAR-DCFR Bhimtal.
