Officer-in-Charge(Stores)

C.C :

To the Incharge, AKMU/ CPP Portal, DCFR, Bhimtal for the publication of this Institute's Website & CPP Portal.

ELECTROPHORESIS UNIT WITH POWER-PACK**HORIZONTAL:**

Dimensions of the electrophoresis tank should be 9 X 25 X 5 cm

The casting tray should be UV transparent and preferably measure 7x10 cm.

It should have gel caster and casting gates.

Gel casters should offer the flexibility of accommodating different size UVTP trays.

It should be provided with minimum two different combs (8 and 15 well)_

The system should use very less buffer (<300mL).

Should be able to use 15- 30 samples in one go.

Should have printed arrow on the side of the base to indicate the direction of run and ensure proper gel orientation

VERTICAL

It should include 1-4 gel (for simultaneous use), 1.0 mm gel thickness. casting stand, 2 casting frames, 10-well combs and minimum of 5 sets of glass plates.

Should facilitate the operation of 1-4 gels in quick time.

Should have casting gaskets to form tight seal (without elaborate sealing procedures

It should facilitate the use of gels of size of 8x 6 cm

The apparatus should use minimum buffer solution preferably <1000 ml._.

Side by side casting stand and simple clamping mechanism for gel casting.

Tank/wet blotting apparatus

It should be compatible with vertical electrophoresis apparatus (above).

Should be capable of Transferring two 10 x 7.5 cm gels in just 1 hr_

Should be with color-coded cassettes and electrodes to ensure proper orientation of the gel during transfer.

The apparatus should be with cooling system to absorb heat generated during rapid transfers.

Power Pack

It should have fully adjustable voltage/current output range of 10-300v/4-400mA

The unit is able to operate in either constant voltage and current modes.

The unit has an automatic crossover feature to switch between constant current and voltage mode.

The unit should have automatic recovery and pause function .

The unit has four sets of safety-recessed high voltage output terminals.

It should be provided with LED display

It should facilitate use across a power input range of 190-260v, 50-60Hz

It should have timer control (up to 90 hours)
